

Think big!

You will need:

Fourteen blank cards
Pencil, rubber and paper

How to play:

Each player takes seven blank cards and writes a different single digit number on each card. Players then swap cards.

Game 1

Working against a 3 minute timer using the numbers on all 7 cards, each player tries to make as many different numbers as possible. Players must write down each whole number as it is made. After 3 minutes the winner is the player who has the most different numbers.

Game 2

Using the digits on all seven cards each player has to make 6 different numbers, write them down, then order them in ascending (or descending) order. Each player checks the opponents list. The first player to finish correctly is the winner.
